

HOLLYMATIC 900E MIXER/GRINDER

A NEW CONCEPT IN MIXER/GRINDERS

What a great combination! The 900E Mixer/Grinder from Hollymatic has a lot going for it. From its easy loading/unloading profile to its stainless steel mixing ribbon, feed screw, grinding head and conical hopper, the 900E is a perfect fit for today's demanding meat room environment.

The 900E is not only user friendly but innovative in its design as well. The feed screw operates at right angles to the hopper. This ensures minimum feed screw exposure to the product, and minimal temperature build up. This translates into extended shelf life and better product bloom and presentation.

Gemini Systems

With its automatic reverse mixing ribbon the 900E ensures a homogeneous eye appealing product. And this mixer/grinder is a snap to clean after each operation.
