**AE-G12N
1 HP**

The #12 & #22 Meat Grinder is intended for heavy duty work in commercial food processing applications. Their exceptional reliability and design make them ideal for open kitchen applications and/or front end meat operations. It is designed to grind the heaviest of textured meat available.

Both models feature an energy-efficient motor with cooling fan and precision gear drive. These grinders are compact in size with no sharp corners or seams. Perfect for the serious deer and small game processor!! Great for home use applications as well!!
