

Intuitive Weighing Value-Driven. Easy-to-Use.

Easy Installation

FreshBase Lite is equipped with software to simplify in-store scale installation and setup. Setup is improved by using a free license to DataConverter, a spreadsheet-style input tool designed to simplify installation and make the setup process highly efficient. FreshBase Lite comes with default configuration loaded, so all you need to do is load your item data.

Ergonomic Operation

The 10.1" compact touchscreen operator display has an adjustable vertical tilt angle, ensuring ergonomic use on higher service counters. The sleek, low profile design enables better customer interactions and is engineered for efficiency and intuitive usability.

Durable Design

Designed to withstand daily usage in busy departments, the robust design with aluminum die-cast housing and groove-free exterior was built with a focus on ergonomics, hygiene and durability. Resistant to the rigors of heavy operator use, it supports operations through boosting uptime.

Innovative Software

FreshBase Lite is bundled with DataConverter and our FreshPro application that offers the same high-level security as our other Fresh products. Each unit is shipped with a factory configuration that includes a standard set of labels, while DataConverter assists you in loading your item data to all FreshBase Lite scales – enabling a simple, seamless installation.

FreshBase Lite

Intuitive functionality with an excellent return on investment: METTLER TOLEDO's FreshBase Lite scale is value-driven and designed for grocery retailers who need reliable, robust solutions with a low total cost of ownership.

FreshBase Lite offers easy-to-use functionality that keeps your fresh food weighing applications running efficiently. Its durable housing and innovative design can withstand the rigors of daily use, while its user interface requires less time spent on training. Increase the productivity of your fresh departments with FreshBase Lite.

FreshBase Lite

Operator Touchscreen Display

- 10.1-inch (25.7 cm) capacitive touchscreen with luminous and high-contrast LED-backlit technology
- Screen resolution: 1,280 × 800 pixels
- Continuous tilt angle adjustments (stepless)

Customer Display

- 7-inch (17.8 cm) widescreen customer display with luminous and high-contrast LED-backlit technology
- Screen resolution: 800 × 480 pixels

Printer

- 3-inch label printer
 - Printing speed: up to 125 mm/s
 - Print resolution: 8 dots/mm

Accessories

- Seafood pan: 64064884
- Lobster pan: 64064885

Processor

- Rockchip® RK3568D2 Quad-core ARM Cortex-A55

Data Storage

- 4 GB RAM
- 8 GB Flash memory

Interfaces and Protocols

- Gigabit ethernet interface (10/100/1000)
- 1 × USB 2.0 port
- 1 × USB 3.0 port
- Integrated wireless solution for wireless data transmission in accordance with standard IEEE 802.11 ac/a/b/g/n (2T2R), compliant with MU-MIMO

FreshBase Lite
with 10.1-inch display

FreshBase C3
with 12.1-inch display

Operating System

- MT Linux Embedded OS

Power Supply

- 100–240 V AC, 50/60 Hz

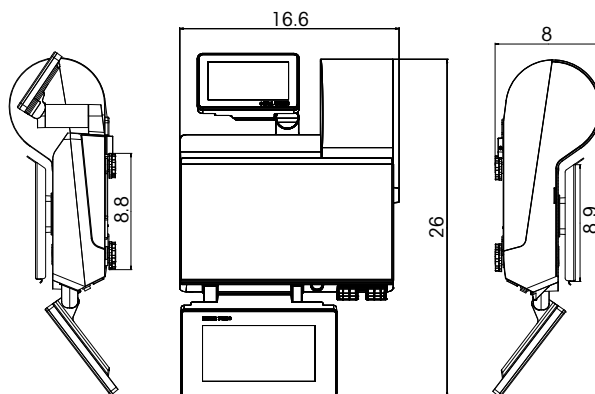

Average Power Consumption

- During operation: ca. 20W

Housing

- High stability due to aluminum die-cast casing
- Shock-resistant ABS polymer display casing
- Casing has an anti-stick coating
- Seamless cover resistant to spills
- Color: Black

All dimensions in inches

FreshBase – Green MT Certified

- Robust design for long equipment life cycle
- Reduced power consumption for energy savings
